## CAREER OBJECTIVE

---

- A Certified **META** Front-End Developer holding a Bachelor of Science degree, highly skilled in HTML, CSS, React, and JavaScript, and has basic knowledge in Java.
- Aspiring to secure an entry-level position focused on crafting engaging web experiences, harmonizing design flair with effective problem-solving. I am excited to construct responsive and visually captivating websites, participate in agile cross-functional collaborations, and remain abreast of the latest industry innovations.

## EDUCATION

---

### Bachelor of Science

June 2019 – July 2022

SKSC Degree College, Proddatur, AP

CGPA – 8.00

## INTERNSHIPS

---

### Frontend Developer

Infotrixx

- As a Front-End Developer intern at Infotrixx, I actively contributed to web development projects. I gained hands-on experience in creating and optimizing user interfaces using HTML, CSS, and JavaScript. Collaborating with the team, I enhanced my skills in front-end technologies, contributing to the overall success of projects during my internship.

### Web Developer

InternPe

- Completed a web development internship at InternPe, where I honed my skills in front-end and back-end technologies. Contributed to the creation of responsive and intuitive web applications, collaborated with diverse teams, and applied problem-solving techniques. Strengthened my understanding of industry practices and made valuable contributions to the company's projects.

### Web Developer

CodeClause

- As a web developer intern at CodeClause, I actively participated in diverse coding projects. Applied my skills in front-end and back-end development, collaborated with a dynamic team, and contributed to the creation of responsive and efficient web solutions. Gained valuable experience and honed my coding proficiency during this internship.

## SKILLS

---

### TECHNICAL SKILLS

- **Languages:** JavaScript, Basics in Java
- **Web Technologies:** HTML, CSS
- **Framework:** React
- **Tools:** Vs Code, Git

### SOFT SKILLS

- Communication
- Problem Solving
- Teamwork
- Leadership

## PROJECTS

---

### Library Landing Page – React

- At Infotrixx, I played a key role in developing a dynamic React library landing page. My focus on user accessibility for researchers and authors included a responsive design, engaging bestseller showcases, and a mobile library feature. My contributions enhanced overall user experience, providing a seamless platform for resource exploration.

### Personalized Financial Tracker - React

- I built a custom financial tracker with React, making it easy for users to add and categorize expenses. This tool lets users analyze their spending habits, offering a clear picture of their financial allocations. The project reflects my skill in React development and dedication to creating practical solutions for personal finance management.

### Ti–Tac–Toe Game – HTML | CSS | JavaScript

- Engineered an intuitive and engaging online Tic-Tac-Toe game utilizing HTML, CSS, and JavaScript, showcasing prowess in coding and interactive web development.
- Displayed adept problem-solving abilities by efficiently identifying and rectifying 95% of the reported issues, ensuring a seamless and polished gaming experience.
- Showcased exceptional time management skills by adhering to demanding timelines and consistently achieving all project milestones on schedule.

### E-Commerce Website – HTML | CSS | JavaScript

- I crafted a dynamic glowing app using HTML, CSS, and JavaScript, drawing inspiration from Nayaka. Users can customize and control various glowing effects for an interactive and visually appealing experience. This project showcases my creative flair in front-end development, highlighting my proficiency in combining HTML, CSS, and JavaScript to deliver an engaging user interface.
